OUT IN THE DAY IS NOT OK !

Hedgehogs are strictly nocturnal so if you see a hedgehog out in the day it needs help!

It's not resting or sunbathing, it's now exposed to predators, dehydration and flies

PLEASE DON'T DELAY! Please don't think…I'll leave it for a day or two…ACT NOW!

IN YOUR GARDEN: secure it in a deep box, bring indoors and place in a quiet room. No need for food or water. Then email help@ealinghedgehogfriends.com and our volunteers will advise

IN A PARK/PUBLIC PLACE: and you cannot secure it, make a note of the exact location using What3Words, pin on Google maps, or take a photo, note landmarks. Then email help@ealinghedgehogfriends.com and our volunteers will organise a search party

HE'S NOT OK - PLEASE DON'T DELAY!
